1. License & Agreement Information

The COPYRIGHT TERMS outlined below are applicable to all products (referred to as "PRODUCTS"), including both premium and free offerings, that are available on our website ("<https://loudlib.net/>").

Each product covered by these copyright terms includes a PDF file containing a copy of this license and agreement, which is located within the product download folder. By accessing, purchasing, downloading, or utilizing our products, you acknowledge that you have reviewed, comprehended, and consented to abide by the following copyright terms.

If you do not meet the eligibility criteria, do not consent to the provided copyright terms, or have not obtained our products through our website, you are not authorized to use our products for either commercial or non-commercial purposes.

2. Product Content Definitions

To facilitate licensing and manage usage restrictions, we classify the contents of our products into three distinct categories: "PRESETS," "SAMPLES," and "PROJECT FILES."

The designation "PRESETS" pertains to sound enhancements specifically tailored for software synthesizer instruments like Serum, Sylenth1, and similar platforms. These presets are typically saved in file formats such as ".FXP" and ".FXB," among others.

The term "SAMPLES" encompasses brief audio snippets or loops that reproduce various sounds, including drum one-shots, synth one-shots, drum loops, synth loops, MIDI files, and more. These samples are typically stored in file formats such as ".WAV", ".MP3", and ".MID".

"PROJECT FILES" refers to the sessions within our Digital Audio Workstations (DAWs), which contain all the elements and arrangements of a musical composition. These files are typically saved in formats like ".FLP", ".ALS", and ".LOGICX".

In our products, we organize these three categories into separate folders. Consequently, you will typically find "PRESETS" content stored in folders labeled "Presets" or "Soundbank," "SAMPLES" content in folders labeled "Sample Pack," and "PROJECT FILES" content in folders labeled "Project Files."

3. Terms of use (100% Royalty-Free License)

The "PRESETS" and "SAMPLES" included in our products are licensed to you and not sold. All rights not explicitly granted to the user are reserved. However, "PROJECT FILES" are neither licensed nor sold to you and are completely excluded from our 100% royalty-free license. They cannot be utilized for commercial or non-commercial purposes.

3.2 Only the original purchaser of our product possesses the legal right to use the enclosed "PRESETS" and "SAMPLES" within their original music compositions, advertisements, soundtracks, or television/film productions. These contents are permissible for both commercial and non-commercial usage but cannot be employed to create competitive products, such as Sample Packs, Sample CDs, Virtual Instruments, or similar collections.

3.3 The "PRESETS" and "SAMPLES" cannot be utilized in isolation; instead, they must be integrated within a musical composition alongside additional components.

3.4 The "PROJECT FILES" included in our products are intended solely for educational purposes.

Meaning, they are entirely exempt from our 100% royalty-free license and cannot be utilized for either commercial or non-commercial purposes. The "PROJECT FILES" encompass musical elements, such as chords and melodies, which are the intellectual property of Loudlib. In the case of our "Artist Edition" products, the "PROJECT FILES" may contain musical content belonging to the original artist or their record label, from whom the pack is inspired.

3.5 Although all "PROJECT FILES" are not covered by our royalty-free license, the "SAMPLES" and "PRESETS" utilized within the "PROJECT FILES" remain 100% royalty-free.

3.6 You are not permitted to resell our products or transfer them to a third party, as this license is non-transferable.

3.7 All "PRESETS" and "SAMPLES" featured in our products are designated as "royalty-free," indicating that you can incorporate these samples and presets into a compilation, sell that compilation, and not be obligated to pay any royalties or recurring fees to Loudlib.

3.8 Copying, lending, duplicating, reselling, renting, uploading, file sharing, or engaging in unauthorized trading of our content (or any part thereof) is strictly prohibited by international copyright law.

4. Credits and use of the Likeness of Others

When incorporating our products into your original creations, you are prohibited from portraying our likeness ("Loudlib") as a featured artist, composer, producer, or any other type of collaborator.

Any utilization of our likeness without our explicit consent is strictly forbidden. This encompasses the use of our royalty-free vocals included in certain products. Should you incorporate these vocals into your original work, you are strictly prohibited from using our likeness or that of the original vocal artist who provided the vocal samples to us.

5. Refunds

Please read this policy carefully. This is the Refund Policy of Loudlib.

Since your purchase is a digital product, it is deemed “used” after download or opening, and all purchases made on www.loudlib.net in most cases are non-refundable, or exchangeable. As the products made available here are intangible, there is a strict no-refund policy.

Loudlib reserves the right to amend any information, including but not limited to prices, technical specifications, terms of purchase, and product or service offerings without prior notice. Due to the nature of digital downloads, there is no way for a customer to return the item to us, as is usually the case with physical goods.

In the event of an issue with a product you purchased at Loudlib, please contact us within 14 days to notify us of the issue.

While we strive to assist with any problems you may encounter, please note that we cannot offer refunds for the following scenarios:

Mistaken or accidental purchases. Purchases made without verifying compatibility with your computer or software. Changes of mind after purchasing. Inability to use the product due to hardware or software limitations. Insufficient knowledge to utilize the product effectively. Refunds will only be considered under the following conditions:

If your bank or PayPal account was unlawfully charged. If serial numbers provided by us to authorize software or plugins have not been utilized, and the conditions outlined above do not apply. Please note that products purchased on sale or with store credit are ineligible for refunds unless the product is proven to be defective and cannot be reasonably repaired or installed or downloaded. User limitations, including software, hardware, and knowledge limitations, are not considered product faults.

Eligibility:

Requests for refunds must be made within 14 days from the date of purchase. Before placing your order, please ensure that you have verified the required software and/or hardware needed to utilize the product, as well as the minimum hardware requirements, which are displayed on the product page. The customer is responsible for possessing the necessary knowledge to use the product effectively.

To request a return, please contact us at team@loudlib.net and include your invoice and any relevant information.

For more information or inquiries, please contact us at team@loudlib.net.
